 Cu-Ag alloys, effect of additives on analytical lines 9-31228
 Cu₂O, absorpt. line contours, line broadening and asymmetry w.r.t. exciton-phonon interac. 9-35656
 Cu₂O, exciton line at λ_2 =5817 Å 9-33235
 Cu₂O, quenched, absorpt. 9-28683
 Cu₂O, u.v. electroreflectance 9-35626
 Cu (II) glycyl-glycylglycine chloride sesquihydrate single cry. spectra, band obs. 9-24405
 Cu bisacetylacetonate, single cry. electronic spectra 9-24407
 Cu bistopolonate, single cry. electronic spectra, d-d transitions obs. 9-24407
 CuCl, absorption, study of lines ν_4 (25571.5 cm⁻¹) and ν_5 (25501 cm⁻¹), 4.2°K 9-49274
 CuCl, Zeeman effect of bound excitons, absorpt. and emission obs. 9-37721
 CuCl crystals, reflection near excitonic absorpt. region, optical consts. determ. 9-37710
 CuCl evaporated films, Faraday rotation due to excitons 9-24370
 CuI, excitonic transitions stimulated by adsorption of organic molecules 9-26194
 Cu(II) complex bis (prolinato), polarized single cry. electronic spectra 9-24406
 DCl, i.r. absorpt. 9-47360
 DyAlO₃, absorpt., mag. structure and metamag. translations investigation 9-31105
 Eu₂(WO₄)₃ single cryst., nucl. reson. fluoresc. of 3 eV ¹⁵²Sm recoil atoms, anisotropic pot. obs. 9-35596
 Eu³⁺ absorpt. intensities 9-39876
 EuAlO₃:Cr³⁺, Cr³⁺-Eu³⁺ pair emission 9-39835
 EuO:R³⁺ film, (R=rare earth oxide), absorpt. bands 9-47266
 Fe-(30 wt %Ni) alloy, f.c.c. and b.c.c., electron energy spectra, sensitivity to $\alpha\text{-}\gamma$ transform. 9-39856
 Fe Garnet, rare earth, i.r. lattice spectra 9-47338
 FeCl₂.2H₂O far i.r. studies of magnon-phonon interaction 9-45077
 Fe(II) fluoro and bromo complexes, d-d spectra 9-24409
 FeS₂, i.r. reflectivity, lattice vibration obs. 9-46974
 FeSi, i.r. reflectivity 9-33505
 Ga₂In_{1-x}Sb, electroreflectance, variation with composition 9-45307
 Ga film, absorpt. in different gaseous media 9-45265
 Ga garnet, rare earth, i.r. lattice spectra 9-47338
 GaAs:Si, compensated, local mode absorpt. and defects 9-47357
 GaAs:Si p-n junctions, photo-e.m.f. spectra at 300 and 77°K 9-37614
 n-GaAs, electroabsorpt. at 300 and 77.3°K 9-39837
 n-GaAs, electroreflection characs. in electroabsorpt. spectra rel. to low free carrier density 9-37723
 GaAs, high resistivity, i.r. abs. at 82°K 9-49276
 GaAs, i.r. absorpt., rel. to doping or structural defects, after irradi. 9-37725

SCIENCE ABSTRACTS SUBSCRIPTION RATES

Information retrieval

Produced by computer-controlled phototypesetting, these abstracts journals cover the world's periodical, conference and book literature and are extending into the fields of reports and patents. Alphabetical author and subject indexes are given twice yearly. Concurrent microfiche

Physics Abstracts (PA), fortnightly, covers the whole field of physics.

***Electrical & Electronics Abstracts (EEA)** specialises in electrical and electronics engineering. Published monthly.

***Computer & Control Abstracts (CCA)**, monthly, covers computer science and technology, control and automation.

£80 (\$US 192) p.a.

£65 (\$US 156) p.a.

£35 (\$US 84) p.a.

* Combined subscription to EEA/CCA: £80 (\$US 192) p.a.

Current awareness

Each 'Current Papers' publishes the full bibliographic reference of every abstract in the corresponding abstract journal and is produced by computer-controlled phototypesetting. Individual members of the IEE, AIP, IEEE,

IPPS and IERE, wherever they reside, can obtain Current Papers at special privilege prices if they order through their own society.

Current Papers in Physics (CPP), Fortnightly.

£12 (\$US 28.80) p.a.

Current Papers in Electrical & Electronics Engineering (CPE), Monthly.

£12 (\$US 28.80) p.a.

Current Papers on Computers & Control (CPC), Monthly.

£10 (\$US 24) p.a.

Subscription renewals, orders, inquiries and changes of address should be sent as follows:

(1) For **Physics Abstracts** and **CPP** from AIP members, wherever they reside, and from the public in the Americas, to the Subscription Department, American Institute of Physics, 335 East 45th Street, New York, NY 10017, USA. Please allow six weeks' notice for changes of address. Send both old and new addresses and include an address label from a recent issue.

(2) For **Electrical & Electronics Abstracts**, **Computer & Control Abstracts**, **CPE** and **CPC** from IEEE members, wherever they reside, and from the public in the Americas, to the Fulfillment Manager, Institute of Electrical & Electronics Engineers Inc., 345 East 47th Street, New York, NY 10017, USA.

(3) For all subscriptions not covered by (1) and (2) above, and for all **Cumulative indexes**, to IEE, Savoy Place, London WC2, England. Telephone 01-240 1871, Telex 261176, Telegrams Voltampere London WC2.

All other correspondence should be sent to: IEE Publishing Department, PO Box 8, Southgate House, Stevenage, Herts., England. Telephone Stevenage 3311 (s.t.d. 0438 3311), Telex 261176, Telegrams Voltampere Stevenage.

Periodicals

Proceedings IEE, published monthly, contains papers of industrial and technological interest from engineers and scientists the world over. Each issue comprises three self-contained groups of papers on Electronics; Power; and Control and Electrical Science, and these can be ordered as separate publications—*Electronics Record*, *Power Record*, and *Control & Science Record*.

Subscriptions to *Proceedings IEE*:

£30 p.a. IEE Associates and Associate Members under 28 and IEE Students: £2 10s. Other IEE members: £5

Separate copies of individual papers are available when they have been published in the *Proceedings*. Price 2s. each

Electronics Record is published every two months, the papers being taken from the two previous issues of *Proceedings IEE*.

£15 p.a. IEE Associates and Associate Members under 28 and IEE Students: 25s. Other IEE members: £2 10s.

Power Record, quarterly, takes its material from the three preceding issues of *Proceedings IEE*.

£9 p.a. IEE Associates and Associate Members under 28 and IEE Students: 15s. Other IEE members: 30s.

Control & Science Record, quarterly, includes papers on control and automation and electrical science taken from the three previous issues of *Proceedings IEE*.

£9 p.a. IEE Associates and Associate Members under 28 and IEE Students: 15s. Other IEE members: 30s.

Electronics Letters, published fortnightly, is an international journal offering speedy dissemination of research and development results in electronics, control and allied subjects, in the form of communications up to about 1200 words in length. Publication is within two to six weeks of receipt, giving the engineer an immediate picture of the latest developments in the field.

£10 p.a. IEE members: £3

Electronics & Power, published monthly, is a wide-ranging magazine covering the complete field of interest of electrical, electronics, and control technology by means of articles, product reviews, correspondence, editorial comment and book reviews.

Electronics & Power: £8 p.a.
IEE members: free

IEE News is a twice-monthly tabloid newspaper for the professional electrical, electronics and control-systems engineer.

IEE News: £2
IEE members: free

Students' Quarterly Journal is received free of further subscription by all IEE Students, Associates and Associate Members under the age of 30. It caters particularly for the younger member, and specialises in concise, topical articles on the latest advances in electrical, electronics and control engineering.

20s. p.a. Senior members: 10s. p.a.

IEE Conference Publications

Each conference is organised by one or more of the IEE Divisions, Power, Electronics or Control & Automation, or by the Science & Education Joint Board. The conferences thus survey the whole ambit of electrotechnology and control.

IEE Conference Publications are internationally recognised as up-to-date, authoritative reviews of development and progress in the various branches of electrotechnology and control with which they deal.
